

Pick-Up Check List

Quiver Farm Projects Chick Hatching Project

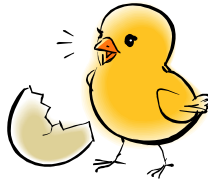

610-845-7522

ALL PROJECTS WILL BE PICKED UP ON THE FRIDAY AFTER THE HATCH.
There can be **NO** exceptions to this! If **YOU** will not be there, **YOU** have to make arrangements for someone to open the door and show us where the things are.
WE PICK UP BETWEEN 8:30AM AND 5:00PM – ONLY!

EQUIPMENT:

Please have all equipment together and ready to go. Leave the light on the chicks, food and water in the brooder box until we arrive. Say good-bye **BEFORE** we come.

- 1 incubator: top and bottom with two inside grates**
- 1 thermometer: be careful of the stem**
- 1 brooder box: bottom, lid, feeder, waterer, lamp and feed can with lid**
- 1 instruction and activity book**

~PLEASE~

WASH THE BOTTOM OF THE INCUBATOR WITH SOAP AND WATER ON WEDNESDAY FOLLOWING THE HATCH! DISPOSE OF ANY UNHATCHED EGGS!

Use soap and water only no bleach! DO NOT WASH THE TOP! Store the incubator with the lid ajar in a safe place. Do not turn the lid upside-down. Incubators stored on the floor may get stepped on. Do not place on heat vents as it may melt the Styrofoam.

We read all evaluation sheets and have gained valuable insight from them. Please take a few minutes to fill one out and put it in the folder.

THANKS YOU FOR THE OPPORTUNITY TO SHARE OUR PEEPS!
