

# The Bunny Kindling Project

**Description:** This program does not offer a presentation.

We will be bringing a bunny home, water bottle, feed dish, enough food for a month or more, instruction folder and woodchips. You will need a place to put the home, either on a table or countertop away from drafts, air conditioning or excessive heat or sunlight (windows are not a good spot because of drafts and sunlight). A room at regular temperature is perfect but bunnies can handle winter weather outdoors. Temperatures above 90 degrees or more will need to be cooled a bit. Heat is very uncomfortable for bunnies. If keeping them outside they must have shade from the summer sun. A hutch under a shade tree is perfect, just be sure to keep her safe from cats and dogs.

**Feeding:** We will have a bin full of food for the doe (female rabbit) and her kits (babies). Just keep her bowl full. If it looks like she pooped in it just scoop out the poop and put a little bit of fresh food on top. We usually will do this about every third or fourth day. We don't like to waste the food. She will need lots of food to produce milk and once the babies are able to eat they will be emptying the bowl too. You may want to give treats to the mother. Such as carrots, broccoli, parsley, and other fresh veggies are fine but nothing bigger than your pinky finger. Juicy veggies like hearts of lettuce, celery, oranges are not a good idea because they can cause wet stools. Try some banana rinds; they like them.

**Cleaning:** The home will need cleaning at least once a week maybe more as the kits grow. Just dump the woodchips in a bag and toss in the trash. Refill with clean woodchips. The water bottle will need cleaning occasionally also. If you see green slime in water bottle just soak it in bleach water for 20 minutes, wash with soap and water, fill and return. Usually the feed bowl can be wiped out with a paper towel if it gets dirty.

**Delivery, Length and Pick Up:** When a momma has given birth to the babies, we make sure she is a good mom and babies are healthy, this may take a couple days. Once we are sure she is ready to go out we will call you to set up a delivery date. Please call us 5-7 days before they need picked up to schedule the pickup date.

**Price:** Prices on all programs vary on: time of year, how many (hours) and where you are located. We service NY, NJ, DE, PA, WV and MD. We are located in Pennsburg, PA. We typically will travel three hours away.

## **What do you need to do?**

1. Make sure you receive an invoice via email and check all the dates, times and price to be sure everything is what you discussed.
2. Please inform office of our arrival and having parking available. If there is a fee you are responsible to pay it.
3. Please read and follow our cancellation and payment policies listed at the bottom

## **What you need to know.**

- A. We are insured and can send you a certificate. If you are tax exempt, we will need your Tax-Exempt Certificate. You can make checks payable to Quiver Farm Projects, Inc. mailed to 3096 Wild Run Road, Pennsburg, PA 18073.
- B. When you pay your invoice, you are agreeing to the cancellation and payment policies listed below.
- C. You are not scheduled unless you have received an invoice and you are not confirmed for delivery until payment policy has been met.

**Payment Policy:** The 50% deposit is due 6 months before to hold your date. If you are booking within six months, the deposit is then due 2 weeks after booking. Remaining balance is due 30 days before delivery. If you are paying with a purchase order, we must receive a copy of the purchase order at least 30 days before delivery.

**Cancellation Policy:** Quiver Farm Projects does not issue refunds; we will reschedule or apply your credit to another program. If you reschedule the program or apply the credit to a program that is more than 6 months away, then there is a \$50 service fee that will be due 30 days before delivery.

*If there is any issue with the above policies, please ask to speak to Emilie in the office, please do not confront or ask another farmer on delivery day or other office personnel when scheduling.*

**Thank You** for reading, to confirm your booking please contact the office at

# The Cavy Pup Project

**Description:** This program does not offer a presentation.

We will be bringing a cavy home, water bottle, feed dish, enough food for a month or more, instruction folder and woodchips. You will need a place to put the home, either on a table or counter top away from drafts, air conditioning or excessive heat or sunlight (windows are not a good spot because of drafts and sunlight). A room at regular temperature is perfect however 60 degrees or more is acceptable if there are no drafts. Temperatures above 90 degrees or more will need to be cooled a bit. If you're not comfortable, your sow isn't comfortable.

**Feeding:** We will have a bin full of food for the sow (female cavy) and her pups (babies). Just keep her bowl full. If it looks like she pooped in it just scoop out the poop and put a little bit of fresh food on top. We usually will do this about every third or fourth day. We don't like to waste the food. They will need a snack with vitamin C. Cavies do not produce their own vitamin C and need a supplement. Because we have a lot of cavies we put the vitamin C in their water (expensive!) but parsley, carrots, broccoli and other fresh veggies have the vitamin C in them and will be sufficient for one sow. So you may want to pick some up before we come. (Wait!! till we call, and you know the delivery date. You don't want it to go bad before we get the sow to you).

**Cleaning:** The home will need cleaning at least once a week. Just dump the woodchips in a bag and toss in the trash. Refill with clean woodchips. If it begins to smell quicker than a week, you can toss more woodchips on top till it's time to dump them. I do this about half way through the week. The water bottle will need cleaning occasionally also. If you see green slime in water bottle just soak it in bleach water for 20 minutes, wash with soap and water, fill and return. Usually the feed bowl can be wiped out with a paper towel.

**Delivery, Length and Pick Up:** As soon as we have a sow that has given birth we will call you and set up a delivery date. You then have her about 30 days. Please call us 5-7 days before they need picked up to schedule the pickup date.

**Price:** Prices on all programs vary on: time of year, how many (hours) and where you are located. We service NY, NJ, DE, PA and MD. We are located in Pennsburg, PA. We typically will travel three hours away.

## **What do you need to do?**

4. Make sure you receive an invoice via email and check all the dates, times and price to be sure everything is what you discussed.
5. Please inform office of our arrival and having parking available. If there is a fee you are responsible to pay it.
6. Please read and follow our cancellation and payment policies listed at the bottom

## **What you need to know.**

- D. We are insured and can send you a certificate. If you are tax exempt we will need your Tax-Exempt Certificate. You can make checks payable to Quiver Farm Projects, Inc. mailed to 3096 Wild Run Road, Pennsburg, PA 18073.
- E. You are not scheduled unless you have received an invoice and you are not confirmed for delivery until payment policy has been met.
- F. When you pay your invoice you are agreeing to the cancellation and payment policies listed below.

**Payment Policy:** The 50% deposit is due 6 months before to hold your date. If you are booking within six months, the deposit is then due 2 weeks after booking. Remaining balance is due 30 days before delivery. If you are paying with a purchase order, we must receive a copy of the purchase order at least 30 days before delivery.

**Cancellation Policy:** Quiver Farm Projects does not issue refunds; we will reschedule or apply your credit to another program. If you reschedule the program or apply the credit to a program that is more than 6 months away, then there is a \$50 service fee that will be due 30 days before delivery.
